

LIGHT OIL BURNERS

2 STAGE SLIDING OR MODULATING from 534 up to 6523 kW

Burners for diesel two stages progressive (hi-low flame) or modulating (PID fully modulating) with the addition of the optional system modulation kit plus feeder. Fan at high pressurisation, combustion head with adjustment at high efficiency and high flame stability.

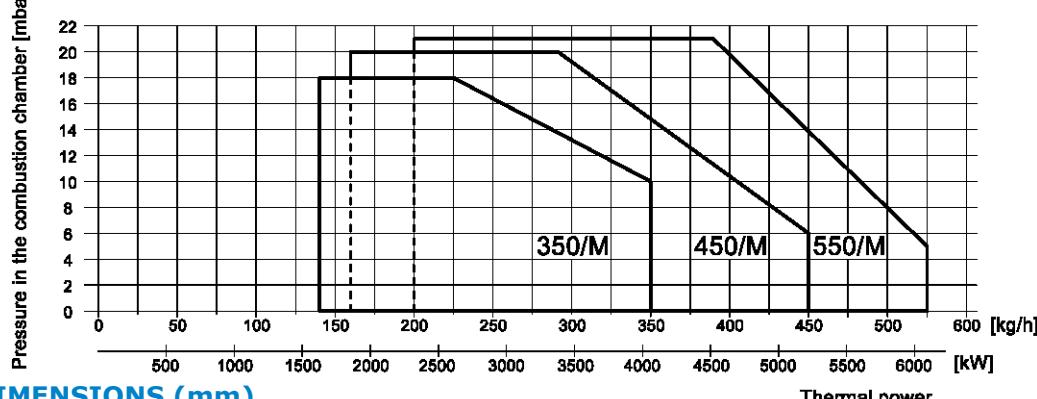

Disposition rationalized of the components with accessibility facilitated for the operations of setting and maintenance.

Complete of gasket for installation on boiler, industrial nozzle with return, flexible pipes, line filter.
